WHERE'S THE
SCIENCE? PART 2

SUZANNE BRUCE, MD

NEEDLE WORK

DermaConcepts unrolls the Environ Medical ROLL-CIT microneedling device to stimulate collagen production that smoothes the skin and treats fine wrinkles without causing permanent epidermal damage.

This device penetrates the skin to a maximum depth of 1mm and causes virtually no bruising and less swelling than surgical 3mm equivalents. Contact: 877.337.6227 or dermaconcepts.com
